THE UNFITTED KITCHEN CO

Designed by Johnny Grey Studios

MULTIGENERATIONAL USE KITCHEN ISLAND

The kitchen hero piece.

Essential for long periods of family cooking.

Divided into two areas, this island has an induction cooking surface and an end grain maple worktop. It responds to every user's individual height (found by measuring your flexed elbow height). A rise-and-fall mechanism works at the touch of a button.

This option can change the way you use a kitchen with all generations able to cook together. When the D shaped work surface is low it can be used as a table to dine or play. When high it's a bar or servery!
