APPLIANCE GARAGE

The Appliance Garage is an essential piece of furniture for every kitchen.

Inspired by the American tradition of keeping small appliances hidden behind a roller shutter, plugged in and yet ready to use, this cabinet radiates charm with its eye-catching shape.

Customers like the idea of stowing their appliances away while still ready to use at a moment's notice.

The Appliance Garage comes with an internal rail at the back of the chamber into which electrical sockets are mounted. For international buyers we can accommodate sockets to suit their country's standards.
